Press Release

FRANSABANK OJSC in the Heart of China's Largest Overseas Industrial Park

Since 2015, Fransabank Group, through its subsidiary in Belarus Fransabank OJSC, has been actively cooperating with the Great Stone Industrial Park – an ambitious large-scale project created in Minsk, in the center of Europe, over a zone of 112 sq. km, as a result of the partnership between Belarus and China.

The Great Stone industrial Park is designated for high-tech industrial and business activities, offering tax benefits and free customs regime within the countries of EAEU, including Russia and Kazakhstan, to open market opportunities and access to over 183 million of customers.

Ease of investment and opportunities of business growth provided in the park are complemented with the presence of FRANSABANK OJSC through its Great Stone branch, serving clients resident in the park and catering for their development and growth needs, in one of the largest platforms in the Eurasian region.

Within the industrial park, companies are provided with stimulating conditions and incentives to encourage project implementation and success. One-stop shop services are available within the park in order to provide companies with administrative procedures in a short time, directly on Park territory, allowing foreign investors to easily adapt and activate their operations.

The Park has easy access to International Highways, International Airport, International Railways and the Capital of Belarus with its labor and scientific potential.

Currently, 57 companies from 13 countries are registered at Great Stone Industrial Park, including companies from USA, EU, Canada, Switzerland and Russia.
